THE WORLD'S FASTEST DUCTING

Backwards Is Not A Good Direction, Nordfab Keeps You Moving Forward

In addition to our standard line of products, Nordfab also offers many custom items such as Inline Back Blast dampers and No-Loss Stackhead. Please contact you sales representative with questions or for a quote. If you can provide a drawing we can probably make it!

Inline Back Blast Damper

DESCRIPTION:

Used to reduce backward air flow in the line. Can be mounted vertically if airflow is upward: Should be specified when ordered.

No-Loss Stackhead

DESCRIPTION:

Used when exhausting from fans or stacks through the roof. Eliminates back pressure on the fan while providing weather protection.

NORDFAB is working hard to keep you and your system moving forward.
