

## **Terms & Conditions**

1. Nordfab is not an engineering firm and does not represent itself as such. The dealer is ultimately responsible for the accuracy of the drawing and parts list, as well as the performance of the system. It is his responsibility to check each item and the drawing carefully.
2. The drawings provided by Nordfab do not include duct hangers or supports. It is the responsibility of the dealer and/or installer to ensure that the ducting is properly supported and within local safety and building codes.
3. Drawing services are sold "per machine connection."
4. ***Nordfab makes no representation or warranty as to the accuracy of the drawing or parts list and shall not be liable for any error in the drawing or list. Without waiving the foregoing, if there is an additional QF part needed to complete the job, Nordfab may provide the part at no charge, shipped via ground freight. Nordfab is NOT responsible for any additional installations expenses or air freight charges.***
5. Changes requested after the drawing is completed will be billed at full rate for each drop changed. For example, if adding a machine changes the size of a trunk line, then each drop connected to the changed line will be billed at the full rate.
6. No drawings will begin until all information is provided to Nordfab.
7. The dealer must provide a contact person who is READILY AVAILABLE to answer technical questions. When further technical information is required, work on the project will be stopped until the information is gathered. This may extend the time required to deliver the final drawing.
8. In the event that a request for a drawing is cancelled, the dealer will be invoiced for any completed work. If an order is not completed within 30 days, the dealer will be invoiced.
9. Minimum order is \$45 net.
10. All drawings and other information must be submitted electronically.
11. As Nordfab is subsidizing this cost, this service is intended only for use with Nordfab systems Quick-Fit ducting. Any use of this service to design, quote, sell or install products other than those offered by Nordfab is strictly prohibited.
12. All other standard Nordfab terms and conditions apply.
