

No-Loss Stackhead

Ordering Information

- When ordering, specify material, gauge (if non-standard), dimension and end style.
- Used when exhausting from fans or stacks through roof
- Eliminates back pressure on fan while providing weather protection.
- Flange is for guide wire attachment.
- Air flow directional arrow sticker is attached to product.

Construction

Inner pipe: laser welded up to 24". 26" and up is plasma welded.

Outer tube: on 24" diameter pipe and all smaller sizes, longitudinal seam is laser welded. On 26" and greater, seam is plasma welded. 14" to 28", outer tube is two pipe sections with Angle Flange connections. 30" to 40", outer tube is three pipe sections with Angle Flange connections. These larger diameters with multiple sections are provided with nuts, bolts and washers included for assembly of the complete unit.

Optional End Styles: Standard QF end can be changed to Raw ID (RI), Raw OD (RO), No Fitting (NF), Hose Adapter (RF), Flat Flange (FFL), Angle Flange (AFL), or Van Stone (VS).
